

STUDENT COUNCIL 5.3.2

We have an active student council at our institution. We consider the students to be the ambassadors of our institution. It offers students a platform to show leadership qualities while they excel in their academic careers. The student council is composed of one female and one male representative from each year of the BDS program, interns, and post graduates. Each year representatives are elected via democratic means by students, who are chosen unanimously based on their academic credentials and leadership ability. Every institution is known by the quality of its outgoing students. The student council elects the President, Vice president, General Secretary, Cultural secretary, Sports secretary.

Every year, the student council organizes a cultural week with graduation day. Our students also participate in physical activities, by conducting sports week every year. Yoga day is celebrated every year to promote fitness. The Student Council celebrates "Teachers Day" every year by honoring teachers. The student council believes that – Alone we can do so little, together we can do so much, so they all took effort in conducting some programs like “Afforestation by planting tree saplings” "World's Women Day" and "No Tobacco Day" .
