**INFECTION CONTROL**

Infection Control Program Has the Main purpose of preventing and stop the transmission of infections. Specific precautions are needed to prevent infection transmission depending on the micro-organisms. The program on Infection control in dentistry was organized by the Department of Public Health Dentistry on 22<sup>nd</sup> January 2025 at examination hall of HKE's Nijalingappa Institute of Dental science and research, Kalaburagi. Guest speaker for the program Dr Girish Nagral, Professor and Head of Department of Periodontics ESI College Kalaburagi.

Dr Girish Nagral with his extension expertise in clinical practice and infection control, he delivered an engaging presentation covering several key aspects of infection prevention in dental settings including fundamentals of infection control, sterilization and disinfection protocols, personal protective equipment (PPE) waste disposal management, hand hygiene practice. In conclusion successfully heightened awareness of infection control protocol and provided attendees with knowledge and tools to implement effective measures in their daily practice. The attendees left with a clear understanding of how to prevent infections in dental setting. End of the session Dr Girish Nagral was honoured by our college vice principal Dr. Veerendra Patil. Total 150 delegates were registered for the program.

## **DIGITAL DENTISTRY WORKFLOW – CDE PROGRAM**

The **Department of Conservative Dentistry and Endodontics** organized a **Continuing Dental Education (CDE) Program on Digital Dentistry iWorkflow**, showcasing advancements in digital dental technologies and their clinical applications.

The program featured distinguished speakers:

**Dr. Surabhi Rairam**

**Dr. Kiran Ghatole**

The sessions focused on the integration of cutting-edge digital tools in modern dentistry. Topics covered included:

**Enhancing Precision with Intraoral Scanners and 3D Printing**

**Advancing with AI-Driven Procedures and Guided Endodontics**

The event saw enthusiastic participation from **final-year BDS students, interns, postgraduate students, and faculty members**, making it a highly engaging and informative session. Attendees gained valuable insights into the future of dentistry and how digital workflows can significantly improve diagnosis, treatment planning, and patient outcomes.

The program was well-received and appreciated for its relevance, depth, and hands-on applicability, highlighting the institution's commitment to continuous learning and technological advancement in dental sciences.

**CHALLENGES DURING EXODONTIA**

**Organized by:** Department of Oral and Maxillofacial Surgery

**Date:** 28th March 2025

**Institution:** H.K.E. Society's S. Nijalingappa Institute of Dental Sciences & Research

On **28th March 2025**, the **Department of Oral and Maxillofacial Surgery** organized a **Continuing Dental Education (CDE) programme** on the topic **“Challenges during Exodontia.”** The event was presided over by **Principal Dr. Jayshree Mudda** and **Vice-Principal Dr. Veerandra Patil**.

The guest speaker for the event was **Dr. Neelkamal Hallur**, Head of the Department of Oral and Maxillofacial Surgery at **Al-Dental College and Hospital, Gulbarga**. He delivered an in-depth and insightful presentation focusing on the **critical aspects of dental extractions** and the **management of associated local complications**, offering valuable clinical perspectives to all attendees.

Additionally, **Dr. Udupi Krishna Joshi**, Head of the Department of Oral and Maxillofacial Surgery at the host institute, addressed the delegates on the **management of medical emergencies during dental extractions**, further enriching the academic discourse of the event. The programme witnessed an impressive turnout of **234 participants**, including undergraduate students, postgraduates, interns, and faculty members. It was a highly informative and engaging session, leaving all attendees with **practical and meaningful takeaways** on the topic.

The event was deemed a resounding success, reinforcing the department's commitment to academic excellence and clinical preparedness.

**WORKSHOP ON ALIGNERS – DIGITAL WORKFLOW**

**Date:** 25th March 2025

**Venue:** Smile Recreations Dental Care, Kalaburagi

**Organized by:** Department of Orthodontics

**Guest Speaker:** Dr. Manjunath Gola

**Participants:** 25 (including 15 students and faculty members)

The Department of Orthodontics organized a focused workshop on “**Aligners: Digital Workflow**” on **25th March 2025** at **Smile Recreations Dental Care, Kalaburagi**. The session, led by **Dr. Manjunath Gola**, aimed to enhance knowledge and skills in digital orthodontics, with special emphasis on clear aligners.

The workshop covered key aspects such as:

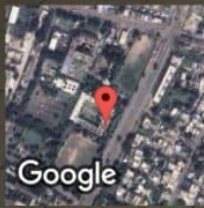

- **Digital scanning** using intraoral scanners
- **CAD-based treatment planning**
- **3D printing and thermoforming** in aligner production
- **Remote patient monitoring and treatment adjustments**

Participants were also introduced to real-world applications, challenges, and strategies to overcome barriers like high equipment costs and the need for technical training. The workshop emphasized how digital workflows improve **precision, efficiency, and patient engagement**, aligning with the latest innovations in orthodontic care.

The event was highly informative and well-received, contributing significantly to the participants' understanding of contemporary aligner therapy.
